QUARTER

- The third quarter of the financial year typically follows the harvest season, characterized by low revenue of Rs 2.6M as compared to same quarter of the previous year which was Rs 5.9 M. However, operational costs, such as field maintenance and personnel expenses, are unavoidable during this period.
- Cost of sales for the quarter ended 31 March 2024 increased by 47% compared to the same quarter last year. This increase is mainly due to field maintenance expenses and payment of a company-wide pay rise with effect from 2022 but accounted in the quarter under review.

NINE MONTH ENDED 31 MARCH 2024

- Revenue from sugar and related products decreased to Rs 25.1 M in the nine months ended 31 March 2024, from Rs 30.4 M in the same period last year due to lower cane tonnage harvested for crop year 2023.
- However, the share of results from associate surged to Rs 39.3 M in the nine months under review, a significant increase from Rs 4.8 M in the same period last year.
- These improvements led to a noteworthy turnaround in the bottom line, shifting from a negative Rs 4.2 M in the comparative period last year to a positive Rs 22.1 M in the nine months under review.
