COMMENTS

COMMENTS FOR THE YEAR ENDED 30 JUNE 2021

The Group's development has been hampered by the COVID-19 pandemic and the Group is now embarking on the next phases of its projects following delays due to the several lockdowns.

During the year ended 30 June 2021, the Group has recognised sales of MUR 710m in Morocco while keeping overheads as low as possible. This resulted in an EBITDA of MUR 140m compared to a negative amount of MUR 673m in 2020. The Group realised a profit after tax of MUR 152m (2020: loss of MUR 783m) after accounting for the recurring finance costs of MUR 110m mainly linked to the loan associated with the land at Les Salines and for a tax credit of MUR 150m following the reversal of a deferred tax liability in Morocco.

The Net Asset Value (NAV) as at 30 June 2021 has improved by MUR 610m mainly due to the depreciation of the Mauritian Rupee which resulted in a foreign exchange gain of MUR 459m. The NAV per share stood at MUR 6.88 (2020: MUR 5.77) and the net cash position of the Group was MUR 106m (2020: MUR 149m).

The figures in the statements of profit or loss and other comprehensive income and statements of cash flows for the Group and the Company which represent twelve months of operation for the year ended 30 June 2021 are not comparable with prior period figures which represented nine months of operations.

COMMENTS FOR THE QUARTER ENDED 30 SEPTEMBER 2021

The Group closed its first guarter with a loss of MUR 10m (2020: loss of MUR 48m) with Domaine Palm Marrakech S.A. (DPM) realising a profit of MUR 24m confirming the positive spin noted in Morocco during the financial year ended 30 June 2021.

OUTLOOK Mauritius

The PDS project at Les Salines has been revisited following the termination of the partnership with Safran Landcorp. The Group is fully committed to the development of this major project and the concept design is nearly finalised. The sale and marketing campaign of phase 1 is expected to be launched at the start of 2022. Management targets to reach the minimum presale level within one year in order to kick-start construction works in early 2023. The international luxury property market seems to be resilient which augurs a promising launch campaign for this prime high-end development.

Morocco

Morocco has been identified as one of the countries in Africa having best managed the effects of the pandemic having put in place a series of measures to limit its effects such as accelerating the pace of vaccination and limiting lockdowns.

DPM has secured several reservations on its recently launched phase for an amount of approximately MUR 630m. Moreover, the team is in final negotiation stage for the signature of additional reservation contracts of a combined value of nearly MUR 325m which are planned to be signed before the end of 2021. This bodes well for the future returns expected from this development.

Seychelles Due to the COVID-19 pandemic, the project has been further delayed and management is pursuing a number of options in consultation with the Seychelles authorities.
