NOTES TO THE ABOVE

The above condensed audited financial statements for the year ended 30 June 2021 have been prepared on the same basis as the accounting policies set out in the statutory financial statements of the group/company and are in compliance with International Financial Reporting Standards (IFRS). They are issued pursuant to DEM Rule 18 and the Securities Act 2005.

RESULTS AND PROSPECTS

Sales volumes in Mauritius and Madagascar have gone down following disruptions caused by the Covid-19 pandemic. Prices of imported raw materials have also increased during the year, resulting in reduced margins.

The increase in the Other Comprehensive Income figure, as compared to last year, is explained by:

- the gains on the revaluation of property, plant and equipment;
- the increase in other comprehensive income of the associate; the increase in fair value of the financial assets.

The Mauritian and Malagasy markets continue to be negatively impacted by the prevailling conditions. Increased costs of freight and imported commodities will continue to impact our cost of production.

By order of the Board
