#### Comments

The full reopening of borders in Mauritius was a success, with arrivals to the destination for October and November 2021 reaching 120k. Although still representing a drop from the corresponding pre-COVID level, there were some encouraging signs at the beginning of December 2021. The average spend per guest was higher by 20%. Furthermore, the bookings in hand for the month, particularly during the festive period, were promising. However, once Mauritius was subject to travel restrictions during the first week of December, we observed huge cancellations from the french market which we have not been able to mitigate. Travel restrictions with Reunion Island and South Africa compounded the issue. Consequently, the number of tourists in Mauritius for December 2021 was 50k, a third of the arrivals in 2019.

In the Maldives, the number of visitors for the quarter under review reached 440k, three times higher than 2020 and similar to the corresponding quarter in 2019 despite the closure of China, (a key source market pre-COVID), which accounted for 30% of its arrivals. For the semester ended 31 December 2021, tourist arrivals to the Maldives was 810k, down by only 30k compared to the corresponding semester in 2019 and an eightfold increase from 2020.

Against the above backdrop, our hotels in Mauritius, which were fully operational during the quarter, achieved an occupancy of 65% and a turnover of Rs 1 bn; more than a fourfold increase from the corresponding quarter last year and 13% less than in 2019. Operating profit from normal operations for the quarter amounted to Rs 252m compared to an operating loss of Rs 118m a year ago. As a measure of comparison, operating profit for the quarter ended 31 December 2019 was Rs 318m.

LUX\* South Ari Atoll in the Maldives has performed well in the current circumstances with an occupancy of 79% higher by 25 and 6 percentage points from corresponding quarter last year and 2019, respectively. Turnover reached Rs 558m, an increase of 82% and 37% on the previous year and 2019. Operating profit which was Rs 24m a year ago and Rs 90m in 2019, went up

Despite the travel restrictions to Reunion Island, LUX\* Saint Gilles performed well, achieving an occupancy of 79% due to its strong domestic market. Its turnover for the quarter under review grew by 48% from Rs 191m in 2020 to Rs 284m. In 2019, its turnover was Rs 319m. Operating profit went up from  $\mbox{Rs}\ 2m$  last year to  $\mbox{Rs}\ 43m$  for the current quarter but down when compared to 2019 by Rs 28m.

As of 31 December 2021, deeds of sales for 26 IHS units out of the 29 units were executed at LUX\* Grand Baie. Four villas were completed and delivered, and in accordance with the relevant IFRS, the profit on those four villas amounting to Rs 154m has been recognised in the current quarter. Deposits on the other units which were still under construction and / or not delivered at 31 December 2021 amounting to Rs 570m are shown as accounts payable in the financial statements.

The total revenue of the Group for the guarter amounted to Rs 1.9bn compared to Rs 750m last year. Profit attributable to the Group was Rs 423m against a loss of Rs 191m last year. For the semester ended 31 December 2021, turnover increased by more than twofold from Rs 1bn to Rs 2.6bn. Profit went up to Rs 100m compared to a loss of Rs 556m for the same semester in 2020.

### **Project Development**

LUX\* Grand Baie opened successfully in December 2021. The feedback from the trade and the guests have been positive. This augurs well for the future of this hotel. The residences are still under construction and completion is expected by the beginning of March 2022. Upon completion and delivery, the profit on sale of the residences and the remaining villas will be recognised in the quarter ending 31 March 2022.

### Outlook

The current environment is still very uncertain, and it is difficult to forecast the number of tourists who will visit Mauritius for the remaining months of the current financial year. However, the latest relevant data from several countries is a cause for optimism. It would appear that, with the vaccine and the level of immunity attained, COVID cases seem to be stabilising across large parts of Europe, our primary market, with the lifting of travel restrictions in some countries, a real possibility. The reopening of the South African and eventually Reunion Island markets should boost arrivals.

Arrivals to the Maldives continue to grow, as confirmed by the latest statistics for the first twelve days of January 2022. Arrivals are higher than 2021 by 53% and close to 2019 at 55k.

By order of the Board

IBL Management Ltd Company Secretary

24 January 2022.
