At end of period	(38,613) 6,621,971	(4,963) 5,086,791

#### **Market Environment**

In Mauritius, the financial year was off to a very good start, notably with the successful reopening of borders in October 2021. Arrivals to the destination for November and December 2021 reached 120,000; the bookings in hand for December 2021 - though still representing a drop from the corresponding pre-Covid-19 level - were promising, particularly during the festive period.

Unfortunately, the listing of Mauritius as "rouge écarlate" by the French Authorities during the first week of December resulted in a number of cancellations which we were not able to mitigate. The various travel restrictions imposed on Reunion Island and South Africa, two destinations which accounted for 25% of our tourist arrivals for the October-December quarter, also impacted our performance. Once the restrictions on these two countries were lifted in March 2022, we saw a big increase in the number of arrivals for the last quarter of the financial year, representing 75% of the arrivals for the same quarter in 2019. Arrivals for the financial year ended 30th June 2022 reached 553,000, representing 61% of the pre-pandemic arrivals in 2019, but were very encouraging given that the destination was opened for only nine months.

The Maldives destination was opened for the full financial year, and arrivals to the destination were similar to that of 2019 at 1.6 million. India was the main market, with 323,000 tourists representing 20% of the arrivals. With regards to Reunion Island destination, tourist arrivals for the financial year are not yet available.

#### **Group Results**

Against the above backdrop, the Group delivered excellent results. The total income increased from Rs 2.3bn a year ago to Rs 6.8bn in 2022. EBITDA before impairment and write offs reached Rs 1.987bn compared to Rs 13m last year. This figure includes a gain of Rs 319m on the sale of the villas and residences at LUX\* Grand Baie.

All three destinations where we operate did very well, with a special mention to LUX\* South Ari Atoll in the Maldives.

Unfortunately, we were informed by the French Authorities that the lease of LUX\* Saint Gilles, expiring in September 2031, will not be renewed automatically despite the fact that our agreement provides for a 10-year extension, subject to mutual agreement between the lessor and lessee.

As a result, the French Authorities will carry out an open tender to the general public at the end of LUX\* Saint Gilles's initial term, in September 2031. On a prudence basis, the Board has decided to impair part of the value of the assets of LUX\* Saint Gilles given the uncertainty of the outcome of the tendering exercise. A provision of Rs 221m has been made in the accounts in that regard. In this context, the Company is currently in discussion with a potential buyer, and the assets and liabilities of that hotel have been classified as "held for sale" in the financial statements.

Depreciation and amortisation for the year increased by Rs 61m compared to the previous year, mainly due to the opening of LUX\* Grand Baie. Operating profit for the year stood at Rs 1.2bn compared to a loss of Rs 645m last year. Profit before tax amounted to Rs 715m compared to a loss of Rs 1.1bn in 2021. This year we had a tax expense of Rs 237m compared to a tax credit of Rs 90m last year. The tax charge stems mainly from the reversal of deferred tax assets of LUX\* Saint Gilles and deferred tax liability on LUX\* Grand Baie. The profit attributable to the Group reached Rs 479m compared to a loss of Rs 1bn last year.

We continue to improve our liquidity resulting from cash generated from our operations, the rescheduling of our debt and the bonds issued to The Mauritius Investment Corporation Ltd (MIC). As at 30 June 2022, the Group had Rs 1.1bn in Bank, and Borrowings at the same date stood at Rs 5.1bn.

The Company issued 170 Redeemable Convertible Bonds to the MIC for Rs 170m, while Merville Ltd, which owns and operates LUX\* Grand Baie, issued 55 Convertible Bonds for an amount of Rs 550m. The Convertible Bonds subscribed by the MIC in the LIR Group at 30 June 2022 stood at Rs 1.47bn and classified as equity in the financial statements. Overall, the gearing of the Group (excluding lease liabilities) is very healthy, standing at 38% at the end of June 2022, down from 54% a year ago.

## **Project Development**

LUX\* Grand Baie hotel opened successfully in December 2021 and the residences in April 2022. The feedback from the trade and guests has been positive, which augurs a comfortable future for the Group.

At 30 June 2022 we had executed deeds of sale for 27 out of 29 IHS units available for sale. Total sales proceeds of Rs 1.25bn have been used to finance the construction of the hotel and a profit of Rs 319m as mentioned above was recognised. After the year-end, we signed the sales deed for another unit and we should be able to sell the last villa by the end of October.

The fire at LUX\* Belle Mare has however hindered our momentum. We are currently in discussion with our insurers in respect of the fire damage and ensuing loss, and work to rebuild the hotel has already started.

## Outlook

In-hand bookings of all our hotels during the first quarter of the financial year ending 30 June 2023 are very satisfactory. The ongoing war in Ukraine and the increase in interest and inflation rates across the world are a source of concern.

By order of the Board IBL Management Ltd Company Secretary 20 September 2022
