

ABRIDGED AUDITED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

RESULTS

SBM Holdings Ltd ("the Company") and its subsidiaries here altogether ("the Group") present the Group and Company abridged audited financial statements for the year ended 31 December 2019. The audited financial statements have been prepared in accordance with the International Financial Reporting Standards.

On 18 August 2018, SBM Bank (Kenya) Limited ("SBMBK") expanded in scale through the take-over of selected assets and liabilities of Chase Bank (Kenya) Limited (In Receivership) ("CBLR"). The figures presented in the statements of financial position as at 31 December 2019 incorporate the carved-out assets and liabilities of CBLR and the statements of profit or loss for the financial year 2019 take into account the full year income and expenses of the carved out operations, while for 2018, they cover only the period from 18 August 2018 to 31 December 2018.

Operating resul

The total assets of the Group have increased from MUR 226 billion as at 31 December 2018 to MUR 260 billion as at 31 December 2019. The increase of MUR 34 billion or 15.1% is mainly attributable to a growth in investment securities from MUR 72 billion as at 31 December 2018 to MUR 94 billion as at 31 December 2019. Gross loans and advances have also increased by 8.3% to reach MUR 122 billion as at 31 December 2019 while net loans have witnessed an increase of 7.1%. Deposits from non-bank customers have significantly increased from MUR 169 billion as at 31 December 2018 to MUR 199 billion as at 31 December 2019.

The above growth in business volumes demonstrates the strong fundamentals of the Group which contributed to an increase of 11% in net interest income for the financial year 2019. Interest income has gone up by MUR 1.8 billion driven primarily by increase of MUR 23 billion in investment securities. This was partly offset by an increase of MUR 1.2 billion in interest expenses on account of growth in deposit base along with increase in borrowed funds. Net fees and commissions for the Group have also improved by MUR 297 million which is mainly on account of retail and corporate fees. Overall, the Group booked MUR 3.0 billion of non-interest income for the financial year 2019 as compared to MUR 3.9 billion for 2018. A one-off bargain purchase gain of MUR 958 million, net of deferred tax, was made in 2018 on the acquisition of CBLR. As such, the Group ended up with an Operating Income of MUR 9.4 billion for 2019.

Non-interest expense went up by MUR 1.3 billion on account of add-on cost of operations with the full impact of the CBLR acquisition, set-up of a wholly own subsidiary in India, building of human capabilities across the Group along with introduction of IFRS 16 during the year. Special levy amounting to MUR 171 million has also been reclassified from income tax expense to non-interest expense following amendment to the Finance Act in 2019. Cost to income ratio stood at 63.8% for the financial year 2019 as compared to 48.0% in 2018.

The Group therefore reported a profit before credit loss expense and tax of MUR 3.4 billion for the financial year 2019. However, the Group results have been hit by exceptionally high credit loss expense again this year. The large credit loss expense of MUR 3.0 billion relates mostly to some previously identified segment B customers at the level of SBM Bank (Mauritius) Ltd partly offset by significant recoveries made by SBM Bank (Kenya) Limited on its impaired accounts.

The Group, as such, ended up with a net profit after tax of MUR 15 million for the financial year 2019, which explains the substantial fall in earnings per share for financial year 2019.

Gross impaired advances net of cash collaterals decreased to MUR 14.0 billion as at 31 December 2019 from MUR 14.8 billion as at 31 December 2018. The net impaired advances to net advances ratio has improved from 6.4% as at 31 December 2018 to 4.0% as at 31 December 2019 due to higher provision coverage ratio of 69.1% for this year (2018: 57.6%) along with an increase in the loan books.

The Group has already declared and paid dividend of 30 cents for the year ended 31 December 2019 while for fourth quarter no dividend is envisaged.

The Group Capital

The capital base and equity of the Group increased from MUR 30.1 billion and MUR 24.2 billion respectively as at 31 December 2018, to MUR 30.2 billion and MUR 24.5 billion respectively as at 31 December 2019.

The Group's capital adequacy ratio (CAR), Tier 1 capital and common equity Tier 1 capital ratios decreased from 24.6%, 16.2% and 16.2% as at 31 December 2018 to 22.1%, 14.6% and 14.6% as at 31 December 2019 due to the lower profit made for the year and substantial increase in risk weighted assets in line with growth in business volumes. However, we remain well capitalised and above the minimum regulatory limits of 13.4%, 11.4% and 9.9% respectively.

Outlook

29 April 2020

Diluted (Cents)

The operating environment in 2019 was mixed, with the first half having been relatively more stable than the second half, which saw the adoption of accommodative monetary policies amidst downward revisions in economic growth forecasts.

2020 unfolded with the outbreak of the COVID-19 and thereafter engulfed the whole world in a global pandemic situation. This has led to weeks of country-wide lockdowns and quasi-halt in economic activities which will have significant economic and financial consequences.

The Group's operations in the different countries of presence will certainly be impacted; although the magnitude cannot be fully assessed at this point in time, given the still-evolutionary stage of the pandemic. The repercussions will mostly be felt in terms of squeezed margins, weakening in asset quality and higher cost to income ratios. Nonetheless, the Group remains comfortably capitalised and has sufficient liquidity coverage.

Looking forward, the Group, faced with the challenges of the COVID-19, will have to re-orient its current strategies to adapt to the needs of all our stakeholders

We thank you for your continued support.
