Consolidation adjustments	(19,398)	(12,520)
Total	247,657	204,741

Note 1: The revenue for the year includes proceeds from the sale of agricultural land.

COMMENTS

Our Group revenue for the year ended June 30, 2023 increased by 15.0% (+Rs 609.4 million) compared to 2022. As shown in the segmental information disclosure, this rise in revenue was attributable mainly to our core business activity segment. Unlike in previous year, Premix Ltd (formerly Pre-Mixed Concrete Limited), has been consolidated as a subsidiary for the entire year under review and contributed Rs 330.9 million to the revenue increase for the year while FAST (Flacq Associated Stonemasters Limited), acquired on March 29, 2023, contributed an additional Rs 36.0 million.

On the foreign front, the Board has decided to postpone the disposal of our subsidiaries in Sri Lanka and Madagascar given the unfavourable economic context prevailing in these countries. Hence, the results of both entities have been reclassified as continuing operations in the statement of profit or loss and other comprehensive income for the year under review.

Our Group operating profit increased from Rs 204.7 million for the year ended June 30, 2022 to Rs 247.7 million for the year under review. Our local core business performance for the last quarter was positively impacted by an increase in revenue and by the reversal of provisions on staff-related costs, retirement benefit liabilities, inventories, spare parts obsolescence and expected credit losses. Conversely, our profitability for the year was adversely affected by a significant increase in our cost of production arising from the impact of imported inputs, higher fuel prices, increased electricity charges and repairs and maintenance. The performance of Premix Ltd improved significantly compared to previous year when we incurred exceptional transition expenses linked to the shift of management.

Despite an increase of 7.9% in revenue and a release in stock damage and discrepancies provision, the profitability of our retail segment for the year under review was lower than in 2022 due to an increase in staff costs, rental charges, marketing and selling expenses.

Conversely, the operating result of our agricultural segment was significantly better than in 2022 due to an exceptional profit of Rs 43.2 million, realised on the sale of agricultural land, to the improved performance of our vegetable-growing and greenhouse activities, and to an increase in the price of sugar.

Our share of results from associates for the year under review increased by 26.6% compared to previous year due to the improved performance of Terranock Ltd.

Our finance costs increased significantly for the year under review due to an increase in borrowings to finance investments (Premix, Drymix and FAST), capital expenditure and working capital needs, and also to the successive increases in interest rates.

In the light of the above and, after taking into consideration the net negative impact of Rs 189.9 million resulting from the impairment of goodwill and the deemed disposal of shares in Premix Ltd in the previous year, our Group net result increased from a loss of Rs 56.7 million for the year ended June 30, 2022 to a profit of Rs 142.0 million for the year under review. Earnings per share likewise increased from a loss of Rs 2.55 in 2022 to Rs 5.04 for the year under review.

OUTLOOK

Our Group local core business revenue for the first two months of the current financial year is ahead of last year. This positive trend is expected to be maintained should the level of property development and infrastructure projects continue to grow.

By Order of the Board

Christophe Quevauvilliers
Company Secretary

September 27, 2023
